Course Description/Objectives:

Strategically located for trade, rich in resources and containing a surprising variety of cultural traditions, the civilizations of mainland and island Southeast Asia are among the most dynamic and unique in the world. This course will examine the various cultural and artistic traditions of ancient Southeast Asia from the earliest archaeological evidence to the onset of colonialism. The lectures and discussions will focus on the material culture of the great civilizations that arose within the borders of modern Thailand, Cambodia, Indonesia, Burma (Myanmar), Vietnam, Laos and Malaysia. A goal of the course will be to understand the cultural, political and religious factors, which gave rise to the creation of these works. Special emphasis will be given to the development of state formation, the role of kingship, the impact of foreign influences and the role of trade in the exchange of ideas.

Attendance is necessary; much of the material will only be presented in class lectures and discussions. You are responsible for keeping up with the material and for getting notes for missed classes.

A student's class participation grade will be evaluated not according to the amount of talking that student does, but rather according to whether that student contributes thoughtfully and constructively, based on a careful consideration of the class readings. Obviously, students cannot contribute to class discussion if they are absent; consequently, repeated unexcused absences will be reflected in their participation grade.

Make-up tests and extensions will be given **ONLY** in cases of emergencies or illnesses with proper documentation (doctors note etc.) In all other cases (family obligations, religious holidays etc.), extensions may be granted if I am informed well **BEFORE** the deadline.

Papers are due **IN CLASS** on the day specified in the schedule. Late papers will be marked down five points (half a grade) for every weekday and ten points (a full grade) for every weekend they are late.

Papers will be handed back once in class. If you are not present on the day papers are handed back it is your responsibility to ask me for the graded assignment.

Adherence to codes of academic honesty is expected on all assignments and in all testing situations. I take the Honor Code (as stipulated in the university undergraduate catalog) very seriously. This code is a simple expression of respect for the course, your classmates and yourself. Cheating and Plagiarism are forbidden (obviously).

For those who do not know what Plagiarism is, it can be defined as: presenting as one's own the words, work or opinions of someone else without giving them proper acknowledgment. Plagiarism can also refer to borrowing the sequence of ideas, arrangement of material, or pattern of thought of someone else without giving them proper credit. Plagiarism can be avoided by proper use of footnotes.
