Psychology, BA or BS

Study the mind and human behavior

Psychology.gmu.edu
Greetings from the Psychology Undergraduate Chair, Dr. Erin Murdoch!

Welcome to the Psychology Department at George Mason University! We are thrilled that you are interested in the field of Psychology and we look forward to helping you reach your academic goals and watching you grow through your studies. During orientation we will be going through the fundamental components that make up our department. This packet provides some of that same information, but it also sheds light on a few different career options that you can prepare for as an undergraduate student. A psychology degree opens the doors to a variety of options and this packet is designed to help you start thinking about which path is best for you. For updates on job postings, opportunities in the field of psychology and more career spotlight postings, please take a look at our blog at: http://gmupsyc.weebly.com/

CONCENTRATIONS IN PSYCHOLOGY

**Work and Organizational Psychology**
Develop knowledge on topics such as leadership, workplace stress, motivation and group/team effectiveness, among others. Students will learn the foundations of work/organizational psychology including important theoretical aspects of the field.

**Educational Psychology**
Understand classroom processes with courses focusing specifically on principles of teaching and learning. Students in this concentration are able to develop strengths in quantitative research methods and school-based research methods.

**Developmental Psychology**
Understand children’s development from theoretical and practical standpoints, including typical development as well as developmental disabilities and non-optimal development. Students learn concepts that apply across the lifespan, but coursework emphasizes early childhood through adolescence.

**Forensic Psychology**
Study the intersection between psychology and criminal justice with special focus on the criminal justice system, the psychological experiences of victims, psychological science in the courtroom and psychological factors of criminal behavior.

**Human Factors and Applied Cognition**
Gain an understanding of a field that matches the technology of user interfaces to human capabilities. We study human-computer interaction, design, usability, human performance assessment, accident investigation, safety and more.

**Health Psychology**
Study psychological factors that influence overall health and well-being, including factors that can impact both physical and psychological health. Learn the roles of cognitive processes, health beliefs and behaviors, emotions, psychosocial circumstances and personality traits.

**Clinical Psychology**
Focus on how psychologists assess and treat mental, emotional, and behavioral disorders. Prepare for a career in clinical or counseling psychology by gaining in-depth knowledge of normal development, psychological disorders, psychological theories, and treatment techniques.

**Cognitive and Behavioral Neuroscience**
Study psychological factors that focus on laboratory experience in cognitive and behavioral neuroscience and more in-depth courses of interest that will broaden the students’ knowledge in understanding brain and behavior.

Look forward to the Psychology Club!

COMING FALL 2018!

For students, run by students!

WE'RE NOW ACCEPTING STUDENTS IN AND OUT OF THE PSYCHOLOGY MAJOR!

During the Fall and Spring semesters we will be holding regular meetings, sponsor speakers, organize socials, commit to community service, and educational events.

Please contact Rich Strauss at Rstraus@gmu.edu or Keishla Morales at Kmorale6@gmu.edu for more information!

Dr. Michael Hurley is the Academic Advisor.
Psychology Honors Program

The Honors Program in Psychology is a research-focused program for students interested in conducting an original research project.

Fall Semester:
Applications accepted every year in the fall semester to begin in the spring. (Completed applications are due the last Friday in October each year).

Spring Semester I: (3 credits, counts as upper-level psychology elective):
Honors students take HONORS I: introduces overview of opportunities within the field of psychology. The format includes guest speakers (faculty, outside speakers), laboratory visits/experience, interactive discussions and beginning thesis development.

Fall Semester II: (3 credits, counts as upper-level psychology elective):
Students take HONORS II: emphasis on project and thesis development with the faculty mentor, preparation for graduate school and development of critical thinking. Students also refine presentation skills.

Spring Semester III: (3 credits, counts as upper-level psychology elective):
Students complete Honors Projects/Theses, with guidance of a three-member faculty committee selected by the student.

Why Participate?

- Class size of less than 20 students
- Interaction with other top students in the department
- Opportunity for conducting research with faculty and graduate students
- Close contact with full-time faculty members
- Mentoring relationship with a faculty advisor
- Strengthening of graduate school application
- Honors recognition on transcript and diploma

Who Can Apply?

Psychology majors who have:
- Completed at least 50 credit hours prior to entering the program
- A minimum cumulative grade point average of 3.25, including transfer credits.
- A minimum psychology coursework grade point average of 3.4, including transfer credits.
- No convictions of honor code violations
- Willingness to commit to three consecutive semesters of Honors coursework and completion of the honors thesis project.

Where Can Additional Information Be Found?

Director, Psychology Honors Program: Dr. Linda Chrosniak
Dr. Linda Chrosniak (703) 993-4139
David King Hall room 2045 lchosni@gmu.edu

Visit the Honors Program web page to learn more and download application: http://psychology.gmu.edu/undergraduate/honors/honors-major
What is Psi Chi?

About Our Chapter:
Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulation, and maintaining excellence in scholarship, and advancing the science of Psychology. Membership is open to graduate and undergraduate students who are making the study of psychology one of their major interests and who met the minimum qualifications. We work together to put on educational and social events each semester to give back to the community and learn more about what the future in psychology studies holds!

How do you join?
Visit psichi.org to submit an application to the GMU Chapter. Be sure to check us out on GetConnected!
Questions? Email: gmupsichi16@gmail.com
Psi Chi

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate students who are making the study of psychology one of their major interests and who meet the minimum qualifications.

**Advantages of membership include:**

- The documents -- a membership certificate and card which gives tangible evidence of membership.
- The references provided throughout one's lifetime (this service alone is worth the investment).
- The experience gained by working with Psi Chi is excellent for building up a resume; it is difficult to attain that first managerial and creative experience.
- Psi Chi is a springboard for professional growth. Opportunities are made available to the members for promoting their research, receiving national and international recognition, meeting and interacting with leaders in their field, and meeting Psi Chi members of other chapters who also will be future leaders.
- The United States government recognizes membership in Psi Chi as meeting one of the requirements for entrance at the GS-7 level in the Federal service.

**George Mason University students interested in joining Psi Chi require:**

- Completed 12 hours in Psychology, 6 of which must be at GMU
- Attained an overall GPA of 3.25
- Attained a psychology GPA of 3.40
- A faculty sponsor
- Currently enrolled graduate students who have been formally admitted to the M.A. or Ph.D. programs are eligible for membership as long as they have maintained a minimum 3.0 GPA.
- Organization dues: $65.00 application fee (this is a one time fee only)
WHAT KIND OF CAREER CAN I GET WITH A PSYCHOLOGY DEGREE?

Teacher

Psychiatric Technician

Writer

Probation and Parole Officer

Rehabilitation Specialist

Market Researcher

Laboratory Assistant

Career Counselor
The career blog was created to provide students with more information about our department along with resources within the field of psychology. The blog allows students to do the following:

- Search for job postings
- Connect with alumni/build your network
- Learn about our concentrations/minors and how to declare one
- Stay up to date with professional development opportunities within the Psychology Department
- Submit a blog entry
- Schedule an advising appointment

We want our students to plan ahead for their future and we believe that this blog can help students get involved and begin gaining useful experience even before graduation. One of the highlights on our blog is our career spotlight section. This section includes a variety of different occupations that students graduating with a B.A./B.S. in psychology can enter into upon graduation. Each post highlights a different job including a brief description of the job and the average salary. Below are some examples of the career spotlight postings that we have done in the past, along with a list of other job opportunities that students may qualify for.

For more information and to check out our blog, please visit http://gmupsyc.weebly.com/.
