All analysis in this fact sheet is based on source data from the U.S. Census Bureau American Community Survey, 2013-2017 distributed through IPUMS-USA, University of Minnesota, www.ipums.org, unless otherwise noted.

¹Please note that the terms "immigrant" and "foreign born" are used interchangeably throughout this fact sheet. Foreign born refers to individuals who are not a U.S. citizen at birth or who were born outside the U.S., Puerto Rico or other U.S. territories and whose parents are not U.S. citizens. The foreign born may include naturalized U.S. citizens, Legal Permanent Residents, temporary residents, refugees and asylees, and others. Additionally, native born includes those who are U.S. citizens at birth, those born in the United States, Puerto Rico, or other U.S. territories, and those born abroad to a parent who is a U.S. citizen.

²A household includes all the people who occupy a housing unit. A native-born U.S. citizen household is defined as a household which is headed by a native-born U.S. citizen, regardless of the immigration status of the spouse. Conversely, an immigrant headed household is defined as a household which is headed by a foreign-born individual, regardless of the immigration status of the spouse. With regard to income, the total family income is used. This includes the total annual income of all family members in the household.
