Letter from the President

Congratulations graduates, and welcome to your Commencement!

The George Mason University community is tremendously proud of the Class of 2021, and I’m sure the family, friends, and distinguished guests at today’s ceremony echo that sentiment as you join a Mason alumni community that is more than 210,000 strong.

You each took your own path to graduation, but you all share this in common: You are earning a degree from a Carnegie Classification Tier 1 research university, the institution that *Times Higher Education* deems the nation’s top-ranked university under 50 years old. And you’re graduating from the most innovative and diverse university in the Commonwealth of Virginia. If tradition holds, about one-third of you are in the first generation of your family to earn a four-year degree.

You are prepared for success, and your readiness exceeds your academic credentials. During the past year and a half, you’ve shown remarkable resiliency, pivoting from traditional courses to online or hybrid instruction and back again this semester. You’ve each pursued your academic goals while at the same time prioritizing the health and well-being of those around you.

We could not celebrate in person today if not for your caring and committed efforts. Your passion and purpose and ability to acknowledge challenges greater than your own bodes well for your willingness and ability to tackle the grand challenges we have to solve throughout the world.

On a personal note, I became Mason’s eighth president in July 2020. So I did not experience the university in all its glory until this fall, when students, faculty, and staff returned to our campuses, enlivening our classrooms, residence halls, and other venues.

While it’s true that in most cases I’ve seen only the top halves of your masked faces, through your actions I’ve observed the sum of your character, and a Mason spirit and determination that has been nothing short of inspiring.

Now is your time to shine. We are proud to call you Patriots. Enjoy this special day.

Gregory Washington
President, George Mason University
Shaza Andersen, BA Area Studies ’89, serves as the founder and chief executive officer (CEO) of Trustar Bank, the first Virginia-based bank to be chartered in more than a decade.

Most recently, Andersen served as the vice chair of the Board of Sandy Spring Bank. Prior to joining the board, Andersen founded and served as chief executive officer of WashingtonFirst Bank, a wholly owned subsidiary of WashingtonFirst Bankshares Inc. Andersen’s leadership grew the bank from a single de novo branch to more than $2 billion in assets, with 19 branches in Maryland, Virginia, and Washington, D.C.

Andersen serves on the FDIC Advisory Committee on Community Banking. She is also a member of the Board of Directors of Amalgamated Casualty Insurance Company. Andersen founded the Trustar Youth Foundation, a local nonprofit organization dedicated to enriching the physical, social, and mental well-being of children in the Greater Washington, D.C., area. In addition, Andersen donates her time and talent to several other organizations that focus on children, entrepreneurship, and education.

Recognized by American Banker as one of the Top 25 Women to Watch and twice named a Top Banker by SmartCEO magazine, Andersen has also been honored with an ABC7 WJLA-TV and Toyota Dealers’ Tribute to Working Women award and was named one of Washington’s Most Powerful Women by Washingtonian.
Since its beginnings in 1957, George Mason University has experienced a steady transformation from regional commuter school to national powerhouse. Mason’s rise is no coincidence, but instead reflects a purposeful path committed to embracing new ideas and adapting to the evolving needs of the community. More than a half-century later, Mason’s reach extends across the commonwealth and into the global arena, with a diverse student body comprising students from all 50 states and 130 countries, a campus in South Korea, and world-renowned faculty and researchers dedicated to both focusing on complex problems and nurturing the next generation of thinkers and leaders.

Even as Mason continues to make an impact regionally, nationally, and globally, we have never wavered in our commitment to inclusivity and our belief that higher education should be accessible to all.

Guided by our motto of Freedom and Learning, Mason strides into the future with a spirit of innovation, an acceptance of wide-ranging viewpoints and cultures, and a conviction to stand firm to our principles. In a rapidly changing world of increasing complexity, George Mason University is in a unique position to make change happen by producing the leaders and solutions that our world needs.
George Mason, the Man

George Mason IV was the primary author of the Virginia Declaration of Rights and Virginia’s first constitution, written in May and June 1776, which served as examples for other states. He was highly regarded by contemporaries for his intellect and abilities. Thomas Jefferson described him as “a man of first order wisdom,” and James Madison described him as “the soundest and clearest reasoner I have ever listened to.” A reluctant public servant, he has been referred to as the “forgotten” or “unknown” founder.

In 1787, Mason attended the Constitutional Convention in Philadelphia. James Madison, although known as the Father of the Constitution, attributed much of the final document to Mason. Mason refused, however, to sign the Constitution, because it did not guarantee the rights of the people. By his principled opposition, Mason ultimately assured the adoption of the federal Bill of Rights based on his Virginia Declaration of Rights. As demonstrated in the language set forth in Mason’s own documents, he was acutely aware of the moral depravity of slavery—yet he owned slaves. He proposed an elimination of the slave trade as a first step toward eventual emancipation, yet he did not make provisions for the care or release of his own slaves upon his death.

On April 12, 1996, a seven-and-a-half-foot statue of George Mason presenting his handwritten draft of the Virginia Declaration of Rights was dedicated at the university. In 2021, the Enslaved People of George Mason memorial was installed on Wilkins Plaza in proximity to the statue. The statue serves as a constant reminder of the ideals of freedom and learning most important to both Mason the man and the university that bears his name, while the memorial honors the memory of two of the hundreds of individuals enslaved by Mason. Together, these landmarks illustrate the complicated legacy of George Mason, the man.
Highlights of George Mason University’s History

The university’s formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia (UVA), offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey’s Crossroads area of Fairfax County with an enrollment of 17 students.

In 1958, the Town (now City) of Fairfax purchased 150 acres and donated the land to the University of Virginia for a permanent branch campus, then known as George Mason College.

Just 14 years later, George Mason University became an independent member of Virginia’s system of colleges and universities when Virginia’s governor signed legislation in 1972.

Mason has achieved many milestones across the decades. Here are just a few highlights.

About the University Mace

George Mason University formal ceremonies begin with the entrance of the university mace, which features Mason’s seal highlighting freedom and learning and is carried in the procession by the lead university marshal. The tradition of the mace derives from medieval times when a bodyguard held a mace during ceremonial functions with the intention of protecting the royal or dignitary. The mace symbolizes the university’s governing authority and is present only when the president and the Board of Visitors are in attendance.

WE'RE 50
AND FABULOUS!

Happy anniversary to us! In 2022, Mason will celebrate 50 years as an independent university. It was on April 7, 1972, that Governor A. Linwood Holton Jr. signed legislation separating George Mason College from the University of Virginia. Celebrating our past while looking toward the future, we will incorporate Mason at 50 into many events throughout the year and host a week of festivities April 4–10, 2022.

We hope you’ll join the celebration.

Check out 50th.gmu.edu for updates on what’s planned.
