I. Important

The basic four-year plans above cover the bachelor of science requirements for business with a concentration in financial planning and wealth management at George Mason University. Please be aware that course scheduling at George Mason University Korea is heavily influenced by the four-year plans above.

Please also be aware that the schedules for the Fairfax semesters are generally dependent on completing the coursework listed in the preceding Songdo semesters. Failing to complete a course may have a significant impact on your ability to take some courses. Thus, students are required to submit a Transition Application to Fairfax form. Your academic advisor must review and approve your coursework prior to studying at Fairfax.

For the reasons stated above, you are strongly recommended to speak with your academic advisor if you wish to modify your four-year plan. Deviating from the four-year plan without consulting your academic advisor may leave you with conflicting courses. **The four-year plans are subject to change. For the most updated four-year plans, please see <https://masonkorea.gmu.edu/advising-and-course-registration/four-year-plans>.** For the most updated information on academic policies and requirements, please refer to the University Catalog (URL: <https://catalog.gmu.edu>).
