Hi All - Welcome to ARTH 201. I am thrilled to be introducing you all to the history of western art this semester. We'll develop a rich learning community together through our exploration of particular artists, artworks and exciting trends in Western Art since the Renaissance. In order to begin, we need to understand the course structure and methods.

Blackboard
Copies of all course documents including the Syllabus, Schedule, PowerPoints, Assignments, Research Project Instructions, and Extra Credit Opportunities are posted at http://blackboard.gmu.edu under this course listing. Course Description
This course will introduce you to western art and its history from the Renaissance to the present through reading, visiting a museum and a case study analysis of one artwork (15C-20C) you choose from a DC museum. Each textbook chapter provides a broad foundation that we will expand with a weekly focus on several artists from that period/culture. Through lectures, PowerPoint presentations, writing exercises and research we will analyze the formal characteristics of art, explore the techniques used to make art objects, study the historical and social context surrounding these objects, and apply these developing understandings to our in-depth research of one museum object.

Course Goals
We will learn to engage the technical and historical context surrounding western art. We will inquire, think critically about art and its history, and pursue our individual interests in art through a lengthy case study analysis.
**Course Expectations**

1. The assigned reading must be completed before coming to class on the date it is due.
2. We will engage in conversation and exercises designed to expand our understandings of art and its histories.
3. We will develop research skills as we experience, identify, select, and analyze art and art-historical writing.
4. We will practice a variety of forms of writing, with emphasis on analytical writing that synthesizes and considers academic sources in a critical manner.
