Hi All - Welcome to ARTH 201. I am thrilled to be introducing you all to the history of western art this semester. We'll develop a rich learning community by exploring art movements, trends, artists, and artworks since the Renaissance. In order to begin, we need to understand the course structure and methods.

Blackboard

Copies of all course documents including the Syllabus, Schedule, PowerPoints, Assignments, Research Project Instructions, and Extra Credit Opportunities are posted at <http://blackboard.gmu.edu> under this course listing. **Please note: these PowerPoints are for use only for students enrolled in this ARTH 201-001 course; they cannot be duplicated, shared, posted, etc. They are covered by copyright laws.**

Course Description

This course introduces you to western art and its history from the Renaissance to the present, through reading, visiting a museum, and studying one DC Museum artwork (15C-20C). Each textbook chapter provides a broad foundation that we will expand by emphasizing several artists from that period/culture. Through lectures, PowerPoint presentations, writing exercises and research, we will analyze the formal characteristics of art, explore the techniques used to make art objects, study the historical and social contexts surrounding these objects, and apply these developing understandings to our in-depth research of one museum object.

Course Goals

We will engage the technical and historical context surrounding western art. We will inquire, think critically about art and its history, and pursue our individual interests by researching one object and producing a case study analysis.

Course Expectations

- 1) The assigned reading must be completed before coming to class on the date it is due.
- 2) We will engage in conversation and exercises designed to expand our understandings of art and its histories

- 3) We will develop research skills as we experience, identify, select, and analyze art and art-historical writing
- 4) We will practice a variety of forms of writing, with emphasis on analytical writing that synthesizes and considers academic sources in a critical manner.
