Economic Development of Latin America
ECON 361-001, Spring 2020

Instructor: Joshua K. Bedi
Class Time: Monday & Wednesday, 12:00 pm – 1:15 pm
Class Location: Enterprise Hall 173
Office Hours: Monday & Wednesday, 1:30 pm – 3:30 pm
   If the above times do not work for you, I can also meet by appointment.
Email: jbedi2@masonlive.gmu.edu

Course Overview

The fundamental purpose of this course will be to develop an understanding of the determinants of economic growth. Less formally, we will try to develop an understanding of what makes some countries poor while others remain rich. Throughout this exploration, we will focus specifically on the context of Latin America. In doing so, we will discuss the importance of institutions (especially private property and rule of law), foreign aid, public choice, geography, and culture as determinants of whether a country is rich or poor.

Recommended Prerequisite: ECON 103 and ECON 104

Required Reading:
All listed reading is required. However, the following books are the only texts students are required to obtain themselves. The rest can be found as PDFs online free-of-charge. All these books should be easily (and cheaply) available on Amazon.

Socialism Sucks by Robert Lawson and Benjamin Powell
The Tyranny of Experts by William Easterly
The Elusive Quest for Growth by William Easterly
Open Borders by Bryan Caplan
The Other Path by Hernando de Soto

Grading:
The following assignment weights are my contract with you. While I will not accept late work and will not provide make-up opportunities, I will also not deviate from this weighting system. However, if you miss a midterm exam because of an unforeseen emergency (medical emergencies, death in the immediate family, etc.), we will plan a make-up date that works for both of us, so I can proctor. You must provide detailed documentation, like a note from a doctor, in order for this to be accepted, and I must be provided ample notice. I cannot change the final exam date, as these dates are set by the registrar.

Daily Reaction Papers: 10%
Final Exam: 30%
Midterm 1: 25%
The grading scale is as follows:
A+ = 97-100
A   = 94-96
A-  = 90-93
B+  = 86-89
B   = 84-85
B-  = 80-83
C+  = 76-79
C   = 74-75
C-  = 70-73
D+  = 66-69
D   = 64-65
D-  = 60-63
F   = Below 60

Mason Core
This course fulfills requirements for Global Understanding in the Mason Core, a foundational selection of courses in a student’s curriculum that foster the knowledge and skills needed for academic success. As such, this course is guided by specific learning outcomes, which include the following:
1. The ability to identify and articulate one’s own values and how those values influence your interactions and relationships with others, both locally and globally
2. The ability to demonstrate understanding of how the patterns and processes of globalization make visible the interconnections and differences among and within contemporary global societies
3. The ability to demonstrate the development of intercultural competencies
4. The ability to explore individual and collective responsibilities within a global society through analytical, practical, or creative responses to problems or issues, using resources appropriate to the field

Daily Reaction Papers
Each day before class (by midnight), every student is required to email me at least a 1-page (and no more than 1-page, front and back) typed, double-spaced reaction to the assigned readings for the upcoming class. This will be to make sure each of you are coming to class prepared, having read the assigned readings BEFORE the class for which they are assigned. These reactions can be criticisms or thoughts about the assigned text or even questions about the content of assigned texts. These reactions are NOT intended to be summaries. These reaction papers will be graded based on students’ abilities to demonstrate understanding of the above four learning objectives, or outcomes.

Participation
To promote participation, each student will start the class with a participation score of 50 out of 100. Whenever a student participates in class, either by asking a question or providing a relevant
comment, 5 points will be added to the participation score. If a student misses a class, 10 points will be deducted from the participation score. A student’s participation score cannot exceed 100.

**Disability Resource Center:**
If you are a student with a disability and you need academic accommodations, please see me and contact Disability Services at 703-993-2474 or ods.gmu.edu. All academic accommodations must be arranged through that office. If you do require accommodations, it is up to you to provide both me and ODS adequate time to provide accommodations.

**Honor Code:**
Students must know and follow the George Mason University Honor Code. If I catch you cheating on an assignment, I will, at the very least, grant you a 0 on that assignment, and, at the most, I will grant you a 0 for the entire course. I lean towards the latter option, because the first time a student is caught cheating (much like the first time a thief is caught stealing) is rarely the first time that student has cheated.

**Schedule:**
Unlike the grading weights for this course, the schedule and readings are subject to change at my discretion, but I promise to leave you ample time to readjust your schedules if I decide to make such a change.

1. **1/22/20: Introduction**
   Introduction, Syllabus Review, Trade

2. **1/27/20: The Economic Problem**
   Trade, The Knowledge Problem, Economic Calculation
   **Readings:**
