Ms. Janet Hammond

Ms. Allison Stowers

**Virtual Office Hours and Email:**

In order to ensure that we can address your questions as quickly as possible, our teaching assistants will be looking after different sections of this class. And, of course, Professor Orens is available to answer your questions as well. You will find your section number (DL4, DL5, or DL6) on Blackboard.

The simplest way to communicate with us is by email. Janet, Allison, and Professor Orens are also available for drop-in office hours during their allotted times listed below and on the "Office Hours" page of the Blackboard site. Remember to check which section you are in, so you know who your primary teaching assistant is. And please let us know if you want to meet during our office hours so we can be sure to be there. These office hours are the best times for us, but if you are unavailable during drop-in hours, email your primary TA or Professor Orens to set up an appointment. *Please take care to include your section number when making an appointment.*

**Required Reading on Blackboard**

Weekly synopses of the history of western civilization  
Primary Source Readings

**Required Viewing on Blackboard**

Weekly video talks about the primary sources

**Course Description**

This course will follow the political, economic, social, and cultural development of western civilization from its roots in antiquity to the present. We shall devote special attention to the beliefs and values that shaped the world in which we live and that continue to inform our understanding of who we are. Thus, ours will be more than a journey into the past. It will be a voyage of self-discovery.

**Course Requirements**

Because this course covers the whole story of western civilization in a single semester and because it does so entirely online, it presents unique challenges. ***It is essential, therefore, that you read this syllabus carefully, and that you understand all of the following requirements.*** They are intended for your benefit, and to do well in this class you **must** adhere to them faithfully.

1. **Reading and Viewing.** The weekly reading and viewing assignments and the video talks are essential. *You cannot earn a good grade if you do not keep up with them.*

2. **Quizzes.** Beginning the fourth week of class, there will be four very simple open-book tests. We shall post the questions on a Thursday and your answers will be due the following Tuesday. You will find the weeks when the tests will be posted indicated by asterisks on the class schedule. These quizzes will account for 50% of your final grade.

4. **Midterm and Final Assignments.** The midterm and final assignments will ask you to analyze some of the primary source readings and to place them in their historical context. You will receive these assignments about two weeks before they are due. These papers will account for 50% of your final grade.

5. **Extra-Credit Paper** The final assignment will include an opportunity for you to earn extra credit. I shall choose a film that you can watch online and pose questions about it for you to answer. If you answer those questions well, up to ten points will be added to your grade on the final assignment.

***Please keep in mind that given the reading and writing this course requires, you cannot earn a good grade unless you are fluent in the English language. You must be honest with yourself about this.***
