SYLLABUS*
PSYCHOLOGY 465 History & Systems
Summer 2011

Instructor: Rebecca Morse (rmorse@gmu.edu)

Class Hours & Location: Online, July 2nd through August 4th
Office Hours: By appointment.
Office Location: David King Hall 1027
Office Phone during hours: 703.993.4065

COURSE OBJECTIVES AND REQUIREMENTS:

Welcome to History and Systems of Psychology. I hope you find the course to be enjoyable and stimulating! The course focuses on the history of the discipline of psychology from its early roots to its contemporary developments. It is a unique approach to history, and I hope that you develop an appreciation for the history you encounter in this course. Although we will not be meeting in person, you will see that I am very active on your discussion board(s), and am available via email, skype, or phone. With rare emergency exceptions, I ALWAYS respond to students within 24 hours. If you do not receive a response within 24 to 48 hours, please, contact me again. It means I have not received your message.

The course is intended to:
1) put the finishing touch on students’ undergraduate education in psychology with an integrated and historical perspective of the field,
2) present philosophical issues in psychology and other sciences,
3) promote an awareness of the ways that historical developments outside of psychology shape the discipline,
4) discuss the roots, the theories, and the relevance of several of the major trends in modern psychology including functionalism, structuralism, behaviorism, Gestalt psychology, psychoanalysis, humanistic psychology, and cognitive psychology,
5) examine the ways in which world views (religious, political, moral, and psychological) shape views of humans and psychology,
6) explore the evolution of ideas within philosophy and psychology,
7) stimulate interest in ideas and develop an appreciation for the process of taking ideas seriously, and
8) promote critical thinking and dialectic. Students are encouraged to think, discuss, and write freely and critically about philosophical dilemmas, historical trends, and the history of changes in the way humans view themselves.

In addition to these established goals of the course, you may wish to establish goals of your own. You may wish to learn more about a particular individual in the history of psychology. (e.g., Mary Whiton Calkins, B. F. Skinner, Baruch Spinoza, or Socrates) or about a system of thought (e.g., Rationalism, Gestalt psychology, Psychoanalysis, or Humanistic Psychology).

TECHNOLOGY:
*Students will be expected to access and use Blackboard on a regular basis (https://gmu.blackboard.com). Important class information, such as the syllabus and weekly readings will be posted here. To access Blackboard, students should use their George Mason email ID and password.
*In addition, students should check their GMU email account regularly. Be sure to check that new messages can be received and that you are not over the message limit. You also have the option for your GMU account to be forwarded to another email address.
ATTENDANCE & PARTICIPATION: As this course is an online format, your “presence” on the discussion boards is crucial to your success in this course.

Students are required to read any texts that may be assigned for that week. Class reading assignments will be posted on the syllabus and/or Blackboard.

For each chapter, I will post discussion questions. You are required to respond to one (1) question per chapter (15 total). You are also required to respond to one other student’s answer per chapter (15 total). Any thoughtful answer will receive full credit, for a total of 30 points. These posts are pass/fail.

Answers/posts are due Sunday by Midnight (meaning, for the week of July 2nd, posts are due by 11:59PM of Sunday, July 8th going into Monday the 9th).

WRITTEN ASSIGNMENTS

(1): As the semester is short, and to encourage your engagement with the material and participation, instead of one larger research paper, students are required to submit 5 article summaries. Each summary is worth 4 points. Each summary should relate to one chapter or person we are covering during the semester. Students pick the article of their choice, and write a two to three paragraph summary. The first paragraph should introduce the topic or theme, the second one should summarize the article findings, and the third should relate it back to the material covered in our text/discussions. These are not formal papers; however, spelling and grammar do count, and citations should be in APA 6\textsuperscript{th} format. Please see http://owl.english.purdue.edu/owl/resource/560/01/ for a helpful formatting resource.

(2): Throughout the semester I will post articles, commentaries, and video-casts from the Society for the History of Psychology for “homework.” You are responsible for reading/watching 5, and writing a one to two paragraph response. Each response is worth up to 2 points for a total of 10 possible points.

EXAMS

We will have two exams, non-cumulative. These will be online, timed, and will be open-book, open note. More details/instructions will be posted on Blackboard. Exams are worth 20 points each. One exam will be due after the 2\textsuperscript{nd} week; the other will be during our final exam period.

GRADES:
Discussion Question Answers: 15 points
Discussion Answer Responses to Others: 15 points
Article Summaries: 20 points (5, with 4 points each)
Society for the History of Psychology Homework: 10 points
Mid-term Exam: 20 points
Non-Cumulative Final: 20 points
Total Possible Points: 100 points

GRADE CALCULATION:
For simplicity, the points have been assigned such that a student can track their own grade without any confusing arithmetic acrobatics. If you earn 97 points you will have a class grade of 97\%, which according to the below chart, is an A+. I round to the second decimal, so a grade of 91.49 is considered a 92 (A-), and a grade of 96.03 is a 96 (A).

Grade Breakdown:
\begin{tabular}{|c|c|c|c|}
\hline
A+ & 100 – 97 & B+ & 89 – 87 \\
A  & 96 – 93 & B  & 86 – 83 \\
A- & 92 – 90 & B- & 82 – 80 \\
\hline
C+ & 79 – 77 & C  & 76 – 73 \\
C- & 72 – 70 & D & 69 - 60 \\
F  & 59 and below & & \\
\hline
\end{tabular}
HONOR CODE:
All provisions of the GMU Honor Code will be followed in this class. Information regarding the Honor Code and what constitutes academic dishonesty can be found in the 2009-2010 University Catalog or online at the following website: http://www.gmu.edu/catalog/apolicies/.

DISABILITY HELP:
If you are a student with a disability and you need academic accommodations, please see me and contact the Disability Resource Center (DRC) at 703-993-2474. All academic accommodations must be arranged through that office.

Important Dates (please see the website for full details http://summer.gmu.edu/registration/):
First/Last Day Class: July 2 through August 2 & 3
Last Day to Add: July 9
Last Day to Drop with No Tuition Liability: July 9
Final Drop Deadline (50% Tuition liability): July 16
100% Tuition Liability: July 17
