#### **The Course:**

The History of Western Civilization explores the significant events, issues, historical figures, and social and cultural movements of the western world from antiquity to the present. We will spend the bulk of our time examining the people, ideas, and events that changed the course of western history.

Why study the history of western civilization? One reason is that it allows you to better understand the world in which you live. Much of what has been identified as the "modern" experience—democracy, enlightened thinking, egalitarianism—owes itself in large part to the influence of western civilization. Another reason is that the history of western civilization provides an intellectual foundation to appreciate the various artistic, cultural, philosophical, and literary movements that have informed—and continue to inform—the modern experience in the west.

#### **Learning Objectives:**

HIST 100-001 is a course in the Mason Core curriculum. As listed on GMU's website for "Learning Outcomes" for the History of Western Civilization, after completing the course, students will be able to:

1. "Demonstrate familiarity with the major chronology of Western civilization"
2. "Demonstrate the ability to narrate and explain long-term changes and continuities in Western civilization"

3. "Develop multiple literacies by analyzing primary sources of various kinds (texts, images, music) and using these sources as evidence to support interpretations of historical events"

For more on the Mason Core learning outcomes, see:

<https://masoncore.gmu.edu/western-civilizationworld-history/>

In addition, upon completion of HIST 100-001, students will also be able to:

4. Explain the major concepts, principles, historical trends, and social and cultural movements and traditions of western civilization
5. Express themselves clearly, concisely, and persuasively in writing

### **Required Texts:**

Achebe, Chinua. *Things Fall Apart*

Hunt, Lynn, Thomas R. Martin, Barbara H. Rosenwein, and Bonnie G. Smith. *The Making of the West: Peoples and Cultures*, 7<sup>th</sup> Edition (Value Edition) (ISBN: 978-1-319-24452-1) **(Please note: the pagination for the ebook is different than that of the hard copy. I would encourage you to have access to the hard copy.)**

Perrottet, Tony. *The Naked Olympics*

Spiegelman, Art. *Maus I: My Father Bleeds History*, and *Maus II: And Here My Trouble Began*

All are available at the GMU bookstore.

There are also several required primary and secondary source documents, as well as films. All are accessible through the Blackboard page for the course.

### **Course Structure:**

HIST 100-001 is an in-person course, though some material can be found on Blackboard under the "weekly modules" on the Blackboard page for the course. In addition, much of the coursework is to be submitted through Blackboard. The submission links are located under the "weekly modules." Instructions on how to submit work can be found under "Submitting Work and TOC for Textbook" header on the course's Blackboard page. The TOC—"Table of Contents"—is included for those students who purchase the textbook online, since the pagination is different from the hard copy version. **That is why I strongly urge you to read the hard copy of the textbook.** The course schedule refers to pages in the hard copy.

**IMPORTANT:** A deduction of 5 points will result for all work each day it is submitted late (weekends included). Realizing that computer problems and internet outages do happen, please make sure you give yourself enough time to submit the work.

It is essential that you know how to access and navigate Blackboard. For a useful reference guide, see: <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>. If you have questions and/or

problems with accessing and navigating Blackboard, please contact Blackboard support at George Mason.

The content of the course includes a variety of material, including lectures, readings, films, and pictures. You are responsible for all course content (in other words, everything posted in the weekly modules for the class, as well as the in-class lectures and readings you will do apart from the material posted on Blackboard).

### **Accessing Course Material on Blackboard:**

It is recommended that you have a computer in good working condition with sufficient data storage—2 gigabytes (or more) of random-access memory. It is also recommended that your internet connection is speedy and has enough bandwidth to access all the course content and complete the quizzes and assignments.

IMPORTANT: Just in case something does happen, I would encourage you to have a backup plan. Disruption in internet connectivity or a faulty computer is not a valid reason for tardy submission of work.

The operating system on your computer should be suitable for the Blackboard platform used by the university. If you have questions regarding this matter, email Information Technology Services (ITS) at [support@gmu.edu](mailto:support@gmu.edu) or call 703-993-8870.

To view the Blackboard page for the course, go to <https://mymasonportal.gmu.edu> and log-in. The “Courses” tab will then appear. After clicking on the tab, HIST 100-001 will appear in a list with your other courses. Then simply click on the HIST 100-001 tab.

Blackboard material will be made available each Wednesday at 8:00 am ET for the following week (except for the first week).

### **Policies of the University:**

Since HIST 100-001 incorporates some aspects of distance education, the policies of the university that apply to online learning also apply to the course. Please familiarize yourself with the policies and adhere to them. The policies can be found at: <https://universitypolicy.gmu.edu/>.

### **Use of the Internet in Assignments, Quizzes, Exams, and Papers:**

The internet is a wonderful thing. There are some best practices I’d like you to use when it comes to using the internet for the course. First, unless specifically instructed by me, there really is no reason for you to consult and include extraneous material from the internet. I cannot expect you to know what is not presented in the course.

Second, just as with other “hard copy” sources you might consult for your other classes, internet sources must be properly attributed, quoted, and cited. Under no circumstances is “cutting and pasting” information from a website assigned in the course and claiming it as your own to be done without the necessary

acknowledgement and citation of the source. The Writing Center at GMU has a useful webpage that addresses most any question you might have about quoting, citing, and other matters on writing. The center also offers assistance that is geared toward English for Speakers of Another Language (ESOL). To see the full list of services, access the center's webpage at: <https://writingcenter.gmu.edu/writing-resources>.

Finally, GMU has a policy on the "Responsible Use of Computing," which applies to everything you do in the course. To access the policy, see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>.

### **Communicating with Instructor/Teaching Assistants:**

Email is the best way to contact me or the teaching assistants. I ask that you include "HIST 100-001" in the subject line in all messages. Also, please use your GMU account. If you email from a different account, I will ask you to resend the message through your GMU account.

Before emailing, please review the syllabus. It could be that the answer to your question is contained there. Also, your classmates are a good source of information. They may know the answer to your question. You might want to consider asking your peers before emailing.

I will do my best to respond to your email as quickly as possible. However, I might not be able to do it immediately. You can expect a reply within a day. I'd like you to abide by that expectation too. If I email you, please respond within twenty-four hours.

### **Course Requirements:**

There are four required books for the class (see above). There are also primary and secondary source documents, images, pictures of artifacts, and other material that I expect you to access. All can be found on Blackboard under the weekly modules. Consult the course schedule at the end of the syllabus for deadlines of all assignments.

There are two take-home exams. The first will cover course material from weeks 1 through 7. The second will cover the rest of the course. Thus, exam #2 is not cumulative. You are to submit the exams through their respective links on Blackboard and by their respective deadlines (see course schedule).

Both exams will consist of two sections: short-answer questions and an essay. In the menu on the Blackboard page for the course, I will make available a list of possible short-answer and essay questions. For each exam, I will select five short-answer questions, of which you will respond to four. For the essay, I will choose two questions, and you will answer one of them. The list of questions for exam #1 will appear on the first day of class. The list of questions for exam #2 will appear the day after the deadline for exam #1. A grading rubric for the exam can be found under "Grading Rubrics" header on Blackboard.

**IMPORTANT:** There is no need to consult outside sources for the exam. All the material and information required to answer the exam questions can be found within the course.

The first exam is scheduled for October 7. I will make the exam available at 11:00 am ET that day (in the week 7 module) and you must submit it by 11:59 pm ET. Exam #2 is scheduled for December 7 (the first day of finals week). It will appear at 11:00 am ET that day (in the week 16 module). The deadline for submission is 11:59 pm ET. Each exam is worth 25 percent of your final grade.

You are also responsible for writing only one paper on *The Naked Olympics*, *Things Fall Apart*, or *Maus I and II*. Let me say that again, in bolded text: **You are responsible for writing only one paper on *The Naked Olympics*, *Things Fall Apart*, or *Maus I and II*.**

**IMPORTANT:** I will not accept a second or third paper written on one of the other books. The first paper you submit is the one I'll count as your paper grade. Please be sure you proofread the paper thoroughly and carefully before turning it in. There are no rewrites.

The length of the paper should be roughly 1,000 words. Please type your paper—as well as all work you submit over the course of the semester. I will post the questions for each paper (you are to respond to one question only) several weeks before the paper is due. The deadlines for the papers are:

- September 16, 11:59 pm ET (*The Naked Olympics*)
- November 7, 11:59 pm ET (*Things Fall Apart*)
- November 28, 11:59 pm ET (*Maus I and II*)

You will be graded on content, use of evidence, organization, and persuasiveness (which means you should pay particular attention to grammar, punctuation, and the rules of writing). A rubric for the paper is posted under the "Grading Rubrics" header. Five points will be deducted each day the essay is late. The paper will count for 25 percent of your grade.

**Please note:** Just as with the exam, there is no need to consult outside sources for the longer paper. I am interested in reading about what you have to say about the book.

The final 25 percent of your grade will consist of several quizzes and assignments. The quizzes/assignments will cover the syllabus, readings, films, and primary and secondary source documents. Many quizzes/assignments are to be submitted on Blackboard. They will become available a day before their respective deadlines at 9:00 am ET. They must be submitted by 11:59 pm ET on the day they are due, except for week #1 (see the list below and course schedule).

**IMPORTANT:** There are no make-ups for the quizzes given in-class. So, if you miss a quiz, there is no need to tell me the reason(s) why you missed it (unless it was because of a commitment on behalf of GMU).

At the end of the semester, however, I will drop your two lowest quiz scores before determining your final quiz average.

The dates for in-class quizzes are as follows:

- September 9
- September 16
- October 17
- October 28
- November 4
- November 18

Below are the dates for quizzes and/or assignments to be submitted on Blackboard by 11:59 pm ET of the day they are due in the course schedule:

- August 24
- August 26
- August 31
- September 21
- October 23
- November 13

**Grade Breakdown:**

Exams (2)            50%  
Paper                25%  
Quizzes (average) 25%

**Grading Scale:**

|    |          |    |          |    |          |   |          |
|----|----------|----|----------|----|----------|---|----------|
| A  | 93-100   | B+ | 88-89.99 | C+ | 78-79.99 | D | 60-69.99 |
| A- | 90-92.99 | B  | 83-87.99 | C  | 73-77.99 | F | 0-59.99  |
|    |          | B- | 80-82.99 | C- | 70-72.99 |   |          |

**Late Papers, Exams, Quizzes, and Assignments:**

Complete your papers and assignments on time. I will deduct 5 points from the final score each day your work is late. Only an emergency can nullify the 5-point deduction.

**Attendance:**

You are expected to attend class. It has been my experience that those students who do so benefit the most and score the highest on exams, quizzes, and other assignments.

If for whatever reason you are unable to attend class, it is your responsibility to obtain the notes from a classmate. I'm more than happy to discuss the material

during office hours, but the expectation is that you will acquire the notes and other information that was discussed in class from a classmate first, and then, if you still have questions, see me or the teaching assistants.

**Extra Credit:**

There is no extra credit. However, if you show improvement over the term, you can earn improvement credit. The process is simple: If you score higher on exam #2 than you do on exam #1, I will divide the difference by three and add it to the score of your first exam. For example, if you score 75 on the first exam and 96 on the second, I will add 7 points to the result of your first exam score ( $96-75=21$ ;  $21$  divided by  $3=7$ ) and calculate your final grade using the new score (82).

**Electronic Devices:**

Smartphones, iPhones, cell phones, and other electronic devices that disrupt class are not allowed. You may use PCs and tablets in class. But be sure the usage of them is only for taking notes or other class-related activities. If you are seen using your device for something other than that, you will forfeit the right to use the device in class.

**Academic Integrity:**

Students who violate the Honor Code will be dealt with severely and may receive a sanction that results in a grade of F (or worse) for a paper, quiz, assignment, or exam. Your adherence to the Honor Code is applicable to all the work you do in the course. It is your responsibility to understand fully what is expected of you. If you have questions about the Honor Code, information can be found on the website for the Office of Academic Integrity: <https://oai.gmu.edu/>.

You are required to complete and submit a pledge stating that you will do your own work. The pledge, which is part of a document that includes the citation of sources, is to be submitted by 11:59 pm ET on August 31 (in the week 2 module).

**Students with Disabilities:**

Accommodations for students with disabilities are available. However, it is necessary that you contact the Office of Disability Services (ODS) first. For more information, see the webpage of the Office of Disability Services at: <https://ds.gmu.edu/>. You can also call 993-2474 or visit the ODS office in SUB I, rm. 4205.

**Diversity:**

The course adheres to GMU's Diversity Statement: "George Mason University promotes a living and learning environment for outstanding growth and productivity among its students, faculty and staff. Through its curriculum, programs, policies, procedures, services and resources, Mason strives to maintain a quality environment for work, study and personal growth." For more, see <https://stearnscenter.gmu.edu/purpose-and-mission/mason-diversity-statement/>.

**Student Privacy:**

Maintaining student privacy through their educational records is a matter taken seriously in the course. And it's the law. The Family Educational Rights and Privacy Act (FERPA) mandates the safeguarding of educational records, among other things. To learn more about FERPA, see <https://registrar.gmu.edu/ferpa/>.

The Student Support and Advocacy Center (SSAC) is another important resource for students. You can learn more about SSAC here: <https://ssac.gmu.edu/>.

**Important Drop/Withdrawal Dates:**

- September 6 is the final day you can withdraw from the course without a financial charge.
- October 24 is the last day for selective withdrawal.
